XtraBond® 9500
MODIFIED POLYURETHANE SEALANT

A high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500 cures rapidly when exposed to atmospheric moisture to form a durable bond.

Features:

- Non-Yellowing
- Paintable
- No Solvents
- Extrudes at Zero Degrees
- Available in Over 230+ Colors

Applications:

- Windows
- Sheet Metal
- Industrial Applications

XtraBond®9500M
HIGHLY FLEXIBLE MIRROR SEALANT

A highly flexible, gun grade, advanced polymer mirror adhesive. Specially formulated for bonding large and small mirrors to various substrates. It has excellent adhesion to all coated mirror backings including plate glass and acrylics, and has been designed with high flex, to address uneven walls.

XtraBond®9500SL
SELF-LEVELING MODIFIED POLYURETHANE SEALANT

A high performance, self-leveling, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500SL cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond®9500TX
MODIFIED TEXTURED POLYURETHANE SEALANT

A textured high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500TX cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond®9500UC
ULTRA-CLEAR MODIFIED POLYURETHANE SEALANT

An ultra-clear, high performance, one component, permanently flexible, easy to use, multi-purpose fast cure modified polyurethane sealant. XtraBond® 9500UC cures rapidly when exposed to atmospheric moisture to form a durable bond.

ACCESSORIES

XtraWipes

XtraWipes are pre-moistened, heavy duty, non-abrasive hand towels formulated to easily remove soil, grease, oil, and sealant from hands leaving them clean and conditioned. Powerful, yet safe, this multi-based formula works together within an absorbent hand cleaner towel for proven performance.

Glass Cleaner

An ozone friendly glass and surface cleaner formulated for the glass, windows and surface markets. It is an ammonia free, streak free, non-flammable, aerosol formula concentrate used to clean windshields, glass, metal, and other hard surfaces.

Foam Cleaner

A cleaning solvent used to dissolve uncured low expansion polyurethane foam sealant and adhesive. It is also useful for dissolving grease on iron, steel, chrome, aluminum, non-varnished wood and marble. It is designed for use with our one-component dispensing guns.

HP Caulking Gun

Premier Industrial Supply's Premier 10oz. Caulking Gun provides 'Xtra' quality and 'Premier' durability, and is ideal for dispensing XtraBond 10oz cartridges/tubes. Designed and manufactured with a lightweight durable frame assembly for easy all-day application and extended life. Also integrated with a comfortable grip and trigger for a smooth and controlled thrust. Also features an adjustable wear compensation device for no-loss trigger motion, and a built-in ladder hook for convenience.

Sausage Gun

Premier Industrial Supply's 10oz and 20oz. Sausage Guns provide 'Xtra' quality and 'Premier' durability, and are ideal for dispensing XtraBond sausages (10oz or 20oz respectively). Designed and manufactured with a lightweight durable aluminum barrel for easy all-day application and extended life. Also integrated with a comfortable grip and trigger for a smooth and controlled thrust. Also features an adjustable wear compensation device for no-loss trigger motion.

Foam Gun

Premier's XtraFoam Gun is a highly suitable, eco-friendly, economical foam gun compatible with all standard polyurethane foam bottles. The foam gun has an adjustable control nozzle to control the flow of foam and it's plastic handle and steel barrel makes for simple use, easy cleanup and worry-free maintenance.

Backer Rod

A synthetic cell foam that comes in a variety of shapes and sizes from 1/4" up to 6". It is a cylindrical, flexible sealant backing composed of closed and open cell material per ASTM C1330. Backer Rod limits the depth of sealant and prevents excessive use of caulking.

Butyl Tape

A Premium Grade Multi-Purpose Cross Linked Butyl Based Tape. It is manufactured in convenient ready to use tapes, beads, and handy rolls. The material is comprised of a soft and pliable butyl and is easily worked by hand, yet bonds instantly to a wide variety of substrates.

XtraTape™ GT950

A closed cell polyolefin foam tape specifically designed for the fenestration and OEM industry. The tape is coated with a solvent based acrylic adhesive on both sides and seals against air, moisture, dust and any outside penetration. Both sides provide optimum performance and is developed to withstand high UV exposure. All tapes are in accordance and comply to AAMA 810.1-92 Type 1.

COATINGS

XtraBond®6500SC

XtraBond®6500SC Modified Neoprene Sealant Surface Coat is a high performance, one component, easy to apply surface coating. XtraBond™ 6500 SC is approved for moisture driven markets and the product has been specifically designed for the truck, trailer and container markets to assure a waterproof surface coat & patch.

XtraBond®9500SC

XtraBond®9500SC Modified Polyurethane Sealant Surface Coat is a high performance, one component, easy to apply surface coating. XtraBond® 9500SC is approved for moisture driven markets and the product has been specifically designed for the truck, trailer and container markets to assure a waterproof surface coat & patch.

LATEX SEALANTS

XtraBond® 25
ACRYLIC LATEX SEALANT

A premium grade multi-purpose acrylic latex sealant formulated to provide excellent adhesion and durability to a wide variety of interior and exterior substrates and applications. XtraBond® 25 has been specially developed for the installation of windows and doors.

XtraBond® 50
SILICONIZED ACRYLIC LATEX SEALANT

A premium grade multi-purpose siliconized acrylic latex sealant. Developed to provide excellent adhesion to vinyl, aluminum, wood, sheet metal and common building materials without the need of a primer. Specially developed for the use in the installation of windows & doors and has minimal shrinkage. XtraBond®50 cures rapidly to form a durable tight bond.

XtraBond® 100
ACRYLIC URETHANE SEALANT

A premium grade acrylic urethane sealant. It has been specially developed for the use in the installation of windows, doors and siding markets. XtraBond®100 is mildew resistant and has been formulated to provide minimal shrinkage when cured. XtraBond®100 cures rapidly to form a durable tight bond.

XtraPatch™ 75
TEXTURED PATCH SEALANT

XtraPatch 75 is a textured, gun grade, acrylic urethane latex patch sealant used for sealing and patching exterior surfaces. Specially formulated for substrates such as Stucco, Concrete, Masonry and Block Walls. It has excellent adhesion to wood, metal, plastic or glass. XtraPatch 75™ will not sag, stain or discolor over time.

ECO-FRIENDLY FACT

Not only do the products listed here follow a "green" standard, we at Premier Industrial Supply go beyond the obvious. For instance, the plastic cartridges that our sealants and adhesives are filled in are made with post-recycled product, and we encourage our customers to follow a "recycling" program.

SILICONE SEALANTS

XtraBond® 150
RTV MILDREW RESISTANT SILICONE SEALANT

A one component, permanently flexible, RTV Mildew resistant silicone sealant. Manufactured for excellent adhesion to cultured marble, tile, glass, vinyl, aluminum, and sheet metal without the need of a primer. XtraBond® 150 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

XtraBond® 250
ANTI-MICROBIAL ACETOXY SILICONE SEALANT-ADHESIVE

XtraBond® 250 is a mildew resistant, acetoxysilicone-based high performance silicone designed for many applications. It is formulated as a one component, permanently flexible silicone sealant that offers excellent adhesion and is NSF Certified. It is recommended for high moisture areas such as marine, baths, and walk-in coolers.

XtraBond® 450
NEUTRAL CURE SILICONE SEALANT

A one component, non sag, permanently flexible neutral cure silicone sealant. Manufactured for excellent adhesion to vinyl, glass, aluminum, wood, sheet metal and most common building materials without the need of a primer. XtraBond® 450 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

HIGH TEMPERATURE SEALANTS

XtraBond® 150HT
HIGH TEMPERATURE RED SILICONE SEALANT

A one part, easy to use, non slumping paste that cures to a silicone rubber when exposed to atmospheric moisture at room temperature. This product is formulated to perform at temperatures ranging from -80 deg. F to 500 deg. F continuous, and up to 600 deg. F for intermittent exposures.

XtraStop™ 550
INTUMESCENT FIRE AND DRAFT SEALANT

XtraStop™ 550 is a commercial quality, intumescent, non combustible fire, smoke and draft stopping water-based sealant designed for filling areas around wires, vents, pipes, ducts and other wall penetrations & construction voids, or wherever ASTM E-814 Specification is needed.

POLYURETHANE SEALANTS

XtraBond® 7500
FAST CURING POLYURETHANE SEALANT

A one component, high performance, permanently flexible, easy to use, multi-purpose fast cure polyurethane sealant. XtraBond® 7500 cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond® 7500TX
FAST CURING TEXTURED POLYURETHANE SEALANT

A textured, one component, high performance, permanently flexible, easy to use, multi-purpose fast cure polyurethane sealant. XtraBond® 7500TX cures rapidly when exposed to atmospheric moisture to form a durable bond.

XtraBond® 8500
MODIFIED POLYURETHANE SEALANT

A one component, medium modulus, permanently flexible, multi-purpose easy-to-use fast cure modified polyurethane sealant. XtraBond® 8500 is environmentally friendly and offers excellent adhesion to vinyl, sheet metal, steel, pre-painted metals, wood, glass, aluminum, plastic, common construction substrates of: window, door, siding, flashing & underlayment papers.

BUTYL & ROOF TILE SEALANTS

XtraBond® 1500
RUBBER BUTYL SEALANT

A one component, gun grade, general purpose butyl rubber sealant. Manufactured for excellent adhesion to most substrates, common building materials and plastics without the need of a primer. XtraBond® 1500 has excellent weatherability, is non staining, paintable and stays permanently elastic when exposed to both high and low temperatures.

XtraBond® 2500
CO-POLYMER SEALANT & ADHESIVE

An ULTRA-CLEAR, single component, permanently flexible, high performance adhesive/sealant. Manufactured for excellent adhesion and performance to a wide variety of roofing substrates, tile, concrete, clay, slate, pre-painted metals, masonry, stone, aluminum, and sheet metal without the need of a primer. XtraBond®2500 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

XtraBond® 6500
ROOF TILE POLYURETHANE ADHESIVE

A one component, permanently flexible, roof tile polyurethane adhesive/sealant. Manufactured for excellent adhesion to roof tile, concrete, clay, slate, pre-painted metals, masonry, stone, and aluminum without the need of a primer. XtraBond® 6500 cures rapidly when exposed to atmospheric moisture to form a durable tight bond.

FLASHING SYSTEMS

NEW PRODUCTS! PREMIER INDUSTRIAL SUPPLY INC. IS PROUD TO PRESENT AFFORDABLE, RELIABLE FLASHING SYSTEMS!

XtraFlash® Plus
ADVANCED FOLD FLASHING SYSTEM

XtraFlash Plus is a heavy duty, flexible, tear resistant, woven polypropylene mechanical flashing system incorporating a patent pending fold system. XtraFlash Plus utilizes a heavy weight material that has a 1 1/2" strip of butyl applied between the folded flashing of a 12" nail on polypropylene material as well as a 1 1/2" strip that will cover the traditional flange, once applied.

XtraFlash® Nail-On
WATER AND MOISTURE BARRIER SYSTEM

A heavy duty, flexible, tear resistant, woven polypropylene nail on flashing designed to prevent moisture and water intrusion when used around windows and doors. XtraFlash was engineered to provide excellent durability when exposed to high ultraviolet rays and has the ability to withstand high winds. The cross woven design is to be mechanically fastened with staples or capped nails.

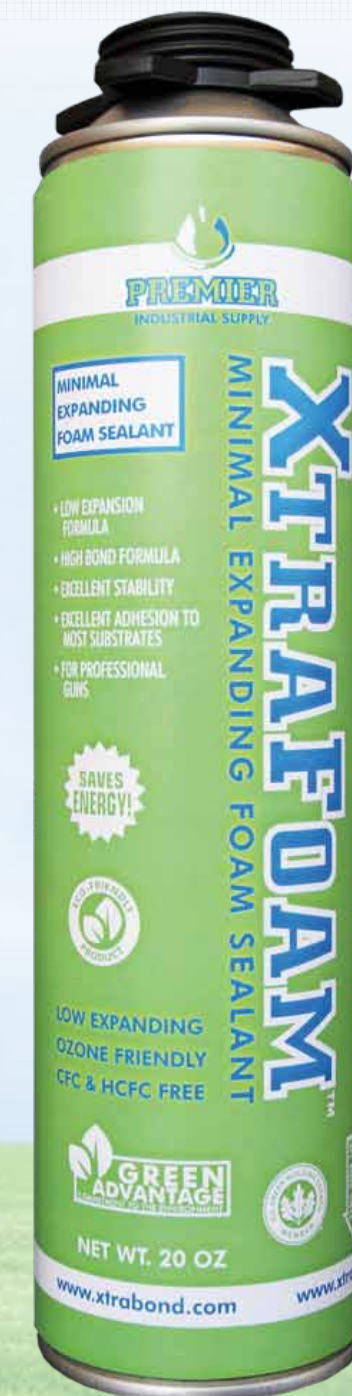

XtraFlash® Membrane
BUTYL BASED WATERPROOF MEMBRANE

An aggressive self-adhesive & self-sealing waterproof flashing membrane that adheres to plywood, OSB, masonry, aluminum, vinyl, steel, drywall, and housewrap. The membrane is based on our proven water and moisture vapor barrier technology.

XTRAFoam™ LOW EXPANSION FOAM PRODUCTS

THE NEW MINIMAL EXPANDING FOAM SEALANT IN A MORE ENVIRONMENTALLY FRIENDLY COLOR

XtraFoam®
MINIMAL EXPANDING FOAM SEALANT

A very low expanding, one-component, multipurpose, polyurethane foam specially formulated to seal around window and door frames. The low pressure, airtight insulation foam blocks drafts, moisture and insects without bowing the window. It is environmentally safe and contains no CFC's or HCFC's.

Features:

- Low Expansion Formula
- Will not warp or bow frames or jambs
- Excellent Stability
- Excellent adhesion on most substrates
- For professional gun applications

Applications:

- Windows
- Doors
- Wood, Aluminum, & Vinyl
- Areas of Air Infiltration

XtraFoam® Black

MINIMAL EXPANDING BLACK FOAM SEALANT

A very low expanding, one-component, multipurpose, polyurethane foam specially formulated to blend in and seal around voids for the RV industry, transportation industry, HVAC and Automotive industry. The low pressure, airtight insulation foam blocks drafts, moisture and insects without bowing the joints. It is environmentally safe, contains no CFC's or HCFC's and does not require painting when used in the above application.

XtraFoam® MB

MULTI-BOND ADHESIVE FOAM

A multiple purpose one-component gun grade foam. It is specially designed for subfloor, marble, drywall, insulation panels and metals. It has extremely low post expansion and adheres well to all building materials such as wood, concrete, brick, marble and granite.

XtraFoam® CC

CLIMATE CONTROL WINTER GRADE FOAM

A very low expanding, one-component, multipurpose, polyurethane foam specially formulated to be applied in severe climate conditions. Its formulation can be used at temperatures as low as 10 Degrees F. The low pressure, airtight insulation foam blocks drafts, moisture and insects. It is environmentally safe, contains no CFC's or HCFC's.

XtraFoam® HH

HAND HELD ADHESIVE FOAM

A very low expanding, one-component, multipurpose, polyurethane foam specially formulated to seal around window, doors, insulation areas and where air infiltration occurs. The low pressure, airtight insulation foam blocks drafts, moisture and insects without bowing the windows. It is environmentally safe, contains no CFC's or HCFC's.
